Lero receives €130,000 European research grant

Lero has received a €130,000 European research grant to commercialise a training application designed to boost global collaboration, communications and productivity across culturally diverse teams. The award was made under Enterprise Ireland’s commercialisation programme co-funded by the European Union through the European Regional Development Fund.

“Today’s global businesses require their employees to work in virtual teams and communicate with stakeholders who may not share the same culture or first language,” commented Lero researcher Dr Sarah Beecham of the University of Limerick who heads the project team. “Potential applications range from global software development to international sales and multinational staff motivation.”

Dr John Noll, Dr Helen Kelly-Holmes, Dr Sarah Beecham

Lero develops model to boost privacy on Social Media sites

Professor
Bashar
Nuseibeh

Lero and The Open University have partnered to develop a new model designed to strengthen user privacy on social media. It forms part of a €2.5m research programme which was presented to MPs at Westminster on March 9th 2015.

Lero and the OU’s research was selected from around 500 entries and was presented by a postdoctoral researcher, Dr Mu Yang, to members of the Houses of Parliament at Westminster under the SET for Britain programme, which is designed to showcase ground-breaking research by early career researchers.
